### About the Southern Regional Council. . .

The SRC has played a profound and strategic role in bringing democracy to the South during most of this century. The Council's staff carries out research, provides technical assistance, develops educational and experimental programs, and brings together Southerners of good will to address important regional issues. We seek to engage both public policy and personal conscience.

### About *Southern Changes*. . .

Now in its twenty-second year, *Southern Changes* is the Council's quarterly journal of opinion, analysis and commentary. The magazine continues a fifty-five year SRC tradition of publishing a regular periodical about the region. *Southern Changes* reflects direct coverage of the issues which are a part of the Council's other programmatic work, but also features contributions from a variety of outside writers who regularly offer insight into the South's culture and changing demographics. Book reviews and essays on culture are an important part of every issue.

### About our readers. . .

*Southern Changes* is mailed to all members and associate members of the Council, as well as to subscribers and a selected list of journalists, educators, labor and civil rights leaders, public policy administrators, and elected officials. Our readers are keenly interested in the events, issues, and personalities of the region, present and past. Circulation totals vary somewhat from issue to issue depending on theme, but average more than 5,000 copies distributed with an estimated total readership of more than 10,000, including libraries, universities, and the public.
